

KONSTANTINOS MAVRIKAS

Senior Front-end Developer

@mavrikas.konstantinos@gmail.com kmavr.dev mavrikaskonstantinos KMavr

EXPERIENCE

Senior Front-end Developer (Freelance, Part-time)

Draft S.A.

- 📅 Apr 2025 – Present 📍 Thessaloniki, Greece (Remote)
- Lead front-end development in a small cross-functional startup team, mentoring a junior developer and collaborating closely with backend (Ruby on Rails)
 - Maintain and evolve a React Native application (Expo, Redux) deployed on both iOS and Android
 - Designed and implemented a custom React-based calendar as a reusable web component (Vite, Material UI), replacing a non-responsive Rails solution and reducing reliance on third-party tools
 - Established modern front-end tooling and workflows (Vite, React 19, TanStack Query, API code generation with Orval) to improve developer experience and scalability

Senior Front-end Developer (Freelance, Part-time)

Pegasus ASTRO

- 📅 Oct 2024 – Jun 2025 📍 Thessaloniki, Greece (Remote)
- Develop and maintain a desktop application using Next.js, Electron, and Zustand
 - Implement UI from Figma designs using Tailwind CSS

Senior Front-end Developer

Crate.io/ALPLA (Project acquired by ALPLA)

- 📅 Jul 2022 – Dec 2025 📍 Thessaloniki, Greece (Remote)
- Maintain and scale a React application using module federation and multiple state management solutions
 - Develop and support a React Native application (Android focus)
 - Introduced unit testing (Jest) and implemented UI from Figma designs

Front-end Developer

Camelot Lottery Solutions

- 📅 Sep 2019 – Jun 2022 📍 Thessaloniki, Greece (Remote)
- Develop and maintain React Native and web applications (Redux, RxJS, Vue.js)
 - Introduced unit testing (Jest) in a Vue.js team by applying existing company practices, improving code reliability
 - Implement UI from Figma designs and work within an Agile (Scrum) environment

Full-stack Developer

ImpediMed Ltd.

- 📅 Sep 2016 – Sep 2019 📍 Thessaloniki, Greece
- Develop a React-based application for medical use cases and maintain supporting Node.js services
 - Contribute to AWS migration and backend infrastructure improvements
 - Implement unit testing using Mocha, Sinon, and Chai

Web Developer

Aleksandros Moutsios & Co L.P.

- 📅 Sep 2015 – Sep 2016 📍 Thessaloniki, Greece
- Develop web applications and maintain internal systems (PHP, WordPress)

SKILLS

React React Native TypeScript

JavaScript Expo

Redux Zustand TanStack Query

Vite Tailwind Next.js

Apollo GraphQL

Node.js Jest Supabase

Drizzle ORM

PROJECTS

- deeplink-doctor npm
Static analyzer detecting Expo deep-link configuration inconsistencies.
- unmaintained npm
CLI detecting abandoned dependencies via repository signals.
- eslint-plugin-tailwind-design-tokens npm
ESLint plugin enforcing design-system color tokens.
- debtctl npm
npm CLI treating dependency overrides as documented debt; fails CI when stale.
- redor.blue
Global voting app with per-country results in 12 languages.
- GhostDock
Generates landing pages from GitHub READMEs.
